Remarks: The reasons for promulgation of this Act are as follows:

At present technology, tools, machinery, equipment, chemicals and hazardous chemicals have been used in the production process, construction and services however knowledge and understandings have not been developed in parallel with such usage. Therefore they have impacted workforce with regards to occupational safety, health and environment. In addition, tendency on dangers from working and even injury, disability or loss of life and on occupational diseases is higher and with more severity. Moreover, most of principles in the Labour Protection Act B.E. 2541 (A.D. 1998) are about general labour protection matters with limited scopes that it cannot be used to prescribe mechanism and measures on management of safety working effectively. Therefore, for the purpose on prescribing appropriate measures on control, supervision, and management of occupational safety, health and environment in order to protect and preserve human resources who are important workforce of the country, it is deemed appropriate to have a law on occupational safety, health and environment in particular, hence this Act is enacted.
